

## PRODUCT APPLICATION

---

VITAR® can provide you with heating element manufactured to your specifications to accommodate your applications. Below are some examples of the applications:

- Semiconductor wafer,
- Dies Process,
- Hot stamping processes,
- Polymer/resin curing process,
- Paper machine,
- Ceramic and plastic injection mold processes,
- Extruders
- Blown film dies
- Injection molding machines
- Plastic injection molding
- Food warming equipment
- Freeze and moisture protection
- Tank and platen heating
- Packaging equipment
- Dry pan heater for freezer
- Ovens
- Switchboard Panel
- Control and monitoring cabinet
